Remote Collection Bag Umbilical Hose	RBU-40-2	CCU-21
Remote Collection Bag 1600ML Capacity	RCBI6-2	CCU-IO (RR-16)

***Important Ordering Information:**

GSA Advantage! is a purchase request format. Please note that component specifics listed underneath ***GSA Part Number*** in parentheses (i.e. pad type/size, hose length, bag capacity) cannot be ordered directly from GSA. After Omni Medical Systems Inc., receives the GSA order request, Omni will contact the customer and discusses size, pad type, or hose length to ensure that the correct item is ordered to meet the customer's requirements. A written quote will be sent via email and confirmed before orders are processed. The GSA quoted price is the same for any configuration of each of these components.
